

TUBE

Our BUFF® Filter Product offering has expanded with the introduction of the **BUFF® Filter Tube**.

The new BUFF® Filter Tube combines the high-quality recycled performance fabric and 4-Way ULTRA STRETCH comfort of our iconic multifunctional headwear with our 3-Layer certified replacement filter system that provides 98% Bacterial Filtration Efficiency and maximum filter mask breathability.

Designed with purpose and built for all-day active use, we have reengineered the fit, function, and needs of our Original Multifunctional Headwear product.

Ergonomic design for all-day comfort without pressure points.

Multiple ways to wear.

Reusable mask made from 95% recycled fabric.

HeiQ V-BLOCK NPJ03 antibacterial treatment applied on inside pocket.

Machine-wash safe at 60°C.

Recommended delicate cycle and less than 30 mins washing program.

Two adult sizes available: XS/S and M/L, one kids size available.

Registered Community Design.

This mask is not certified as a medical device or personal protective equipment.
